

# Soda Ash Chemical Feed System

## Flex-Lite Retention Tank

- ◆ Manufactured by Flexcon®
- ◆ 40 gallons (other sizes available)
- ◆ Reinforced with continuous strand fiberglass
- ◆ Sealed with epoxy resin
- ◆ 3 piece construction leads to longer tank life
- ◆ Made up of copolymer polypropylene
- ◆ 53.4" height, 16.5" diameter (40 gal capacity tank)

## Material:

### Sodium Carbonate

The material used in the chemical tank is sodium carbonate ( $\text{Na}_2\text{CO}_3$ ), or "soda ash", which raises the pH of the water. Soda ash is typically used to treat water with a very low pH.

## Chemical Tank

**35 gallon  
(18" x 32")**

## ChemTech 100 Feeder Pump

- ◆ 230 volt/30 gpm
- ◆ Fully adjustable output over entire operating range
- ◆ Bleed Valve assembly relieves pressure from drain line
- ◆ Sealed gear train extends life of the pump
- ◆ Quad Ball check system ensures reliable and accurate performance
- ◆ 2 year warranty
